Professional Experience

General Motors   *Warren, MI*
Software Developer   *October 2020 - Current*

Motorsports
- Maintaining and improving previously outsourced motorsports tools used by Nascar race teams
- Implemented the ability to pull parts data from various organization's data sets
- Improved usability by making React components more responsive to different device screen sizes

Common Test Management System
- Collaborated with stakeholders to plan and develop common plugins that work in any IBM Rational Team Concert project area
- Developed a RTC template loader that enabled the business to control the functionality of the common plugins without touching the code
- Wrote comprehensive documentation on how each of the common plugins function and how to set up excel templates that act as instructions

Rapid Prototyping Portal
- Delivered a website built with Angular and .Net that allowed users to send requests to 3D printers and the part would be shipped to their work station
- Developed and incorporated automated browser test cases into our CI/CD pipeline to catch bugs before users do

---

Awards

General Motors   Geek Week 2021
Hackathon Winner
- Developed an Android application for electric car mobile charging
- Allowed for users to sign up as customers or providers, register their vehicles etc.
- Built using React Native, Expo, Nrel, CarMD, Google Firebase, and Google Places

---

Relevant Experience

Dungeons and Dragons Creator - github.com/conorkenn/dnd-character-creator
Generates dnd characters
- Generates a character to the 5E standard
- Implemented the official player's handbook

Pokematch - github.com/conorkenn/pokematch - *suelz.pythonanywhere.com*
Modern dating app. Full Stack web-application
- Built using Python 3.6, Flask, SQLalchemy, and Bootstrap
- Allows users to sign-up, create a profile, edit preferences, match, chat, etc
- Implemented real-time synchronization allowing for multiple concurrent users

---

Education

Elmhurst College   *Elmhurst, IL*
Bachelor of Science in Computer Science   *December 2019*
